New products from Montana Colors

MEGA COLORS

FASTER, BIGGER & STRONGER

In 2007, due to the public demand for a product which would paint quicker, Montana Colors created Mega, the first range of sprays in a 600ml format. Introduced with a range of 10 colors, including Silver Chrome.

The time has now come to upgrade, so that even the most demanding writer will remain satisfied. We have modified our formula, gaining a faster flow, thicker lines and better coverage than ever before. Additionally, we have extended the range to twelve of our brightest, most opaque colors.

INCREASED OPACITY

A paint's opacity can vary greatly depending on what type of surface it is being applied to. Which is why we always extensively test our products in the conditions and on the surfaces it will be used. With this new formula we have achieved a perfect equilibrium between opacity and density.

NEW COLOR CHART

With the further development of the new Hardcore 2 line and its colours, we believe it necessary to include some of it's colors in the Mega range. These new colors, due to their high intensity, fall in line with the Mega concept. Enhancing our range, we give a warm welcome to Paris Green, Anonymous Violet and Geisha Violet, which only makes this color range more dynamic.

HIGH POWERED

A stable and uniform composition for a 600ml, which permits the can to maintain constant pressure right to the end. Giving the Mega the ability to achieve wider lines with better coverage than ever before, thus fully optimising its performance.

EXTREME TEMPERATURES

This new formula also permits optimum functionality in even the most extreme weather conditions. Fully tested as low as -15 C and above +35 C.

- Superb in extreme weather conditions
- Ultra Fast drying times
- High Coverage
- Thicker, wider lines
- Uniform lines from beginning to end

New products from Montana Colors

3 new Mega Colors

Following the success of the Mega Colors, Montana Colors expands its color selection with three new colors. To be specific, we're talking about Pearl Grey, Love Pink, and Toasted Brown, three luxurious, secondary colors that combine with the already available ones to increase possible color combinations.
