FLUOR PAINT

Paint composed of pure fluorescent pigments, acrylic resins and copolymers of a thermoplastic nature that is ideal for coating surfaces that require high luminosity or need to be visible from a distance.

For obtaining a more attractive finish we recommend applying a prior coat of MTN Background White. May also be protected with Acrylic Varnish in cases where greater permanence is required in order to withstand abrasion.

Available in 3 colors:
Fluor Yellow, Fluor Red and Fluor Green.

Format: 400ml.

Characteristics:

- Fast drying
- Very bright colors
- Easy to apply on a multitude of materials
- Resistant to freezing temperatures
- Low resistance to UV rays

Applications:

- Do It Yourself projects
- Topographical signage
- Geological studies
- Mining
- Construction
- Industry
- Generally, where very bright signage is required

MATTE FIXER

Transparent matt lacquer that is perfect for fixing and prolonging durability against humidity and dust for artworks done on paper in diverse, preferably dry, artistic techniques (pastel, charcoal, pencil, graphite, watercolor...).

Provides surfaces with a matt finish without altering the color.

Available in one matt finish.

Format: 400ml.

Characteristics:

- Fast drying
- Colorless
- Non-yellowing
- Excellent matt finish
- Easy to apply and recoat
- Not resistant to weathering

Applications:

- For unifying finishes
- Protecting original artworks
- Crafts
- Fine Arts

LUMINESCENT PAINT

Acrylic, photo-luminescent paint composed of pigments that glow after exposure to light.

Recommended for use on surfaces that require visibility in the dark and is ideal for signage on evacuation routes, emergency panels and spaces without lighting where signage is needed.

Maximum luminous results are achieved when applied on white surfaces or MTN Background White primer.

Available in green-yellow color.

Format: 400ml.

Characteristics:

- Fast drying
- Easy to apply and recoat
- Long-lasting luminescence
- May be protected with an acrylic varnish

Applications:

- Signage for exits and emergency routes
- Switches
- Fire extinguisher equipment
- Decoration
- Generally where signage in dark areas is required

METALLIC PAINT

Metallic paint formulated with solvent-based acrylic resins. Contains a high percentage of pearlescent, lustrous pigments.

May be applied to all types of surfaces: wood, metal, glass, ceramic...

In some cases a primer coat may be required.

Available in 9 colors: Black, Gold, Aluminum, Blue, Dark Blue, Golden Pink, Purple, Green and Red.

Format: 400ml.

Characteristics:

- Fast drying
- Glossy, uniform finish
- Easy to apply and recoat
- High resistance to weathering
- May be protected with an acrylic varnish

Applications:

- For decorating and enhancing automobiles and objects
- Do It Yourself projects
- Generally, where a glitter-like effect is required

ERASABLE CHALK PAINT

Chalk paint for temporarily marking or for any other situation where easily erasable markings are required on non-porous surfaces.

Once dry, the paint does not stain to the touch and may be cleaned with a damp cloth or pressurized water.

Available in 8 colors: Black, White, Electric Blue, Light Red, Light Yellow, Magenta, Valley Green, Orange.

Format: 400ml.

Characteristics:

- Matt finish
- Highly opaque
- Very fast drying
- Erasable with a damp cloth
- Once dry does not stain to the touch
- Does not produce volatile dust

Applications:

- Temporary marking and signage
- Signs
- Guerrilla marketing
- Decoration and industrial uses
- Kids activities

Upcoming releases

Following the release of the MTN PRO range where special paints are a main feature, soon we will present new complementary products for obtaining perfect finishes.

Also, a new display case for showcasing all of the MTN PRO items will be available.
